Ambedkar Nagar, Uttar Pradesh, 224141, India

I am a highly driven recent business school graduate seeking a full-time position in finance where I can lend my knowledge of market analytics to help your organization improve profitability.

Work Experience

I have Completed Full Stack Developer And Summer training

May 2025 - May 2025

BTPS India (PVT LTD) | Kanpur

Projects

Movie Website

Present

This website features four key pages: Admin, Home, Movie, and Registration. The Home page highlights various special features, providing an engaging and user-friendly experience. The Movie page offers a curated selection of films, while the Registration page allows users to sign up and access exclusive content. The Admin page enables efficient management of site content and user data.

Pizza restaurant

Present

My Pizza Restaurant is a dynamic web app for seamless food ordering. It includes a stylish homepage, interactive menu, customizable toppings, cart system, and secure order management using HTML, CSS, JavaScript, ASP.NET, and SQL Server.

IIMM Ayodhya

Present

I have created a clone of IIMM Ayodhya website, replicating its design, layout, and features. It showcases similar structure, navigation, and content styling, ensuring a professional and responsive user experience for learning and practice purposes.

Core Skills

C#, ASP.NET, MVC, Java, MS SQL, CSS, JavaScript, HTML, SQL Server, Visual Studio, Github
