Full Stack Developer

9839174727  
Ambedkar Nagar, Uttar Pradesh , 224141, India

I am a highly motivated Diploma graduate in Computer Science Engineering, seeking a full-time position where I can apply my technical knowledge, programming skills, and problem-solving abilities to support organizational growth and deliver efficient solutions.

**Work Experience**

**I have Completed Full Stack Developer course** May 2025 - Present  
BTSP India (PVT LTD) | Kanpur

## Projects

### Movie Website

Designed and developed a dynamic web application with user authentication, movie listings, blog publishing, and secure registration features, along with an admin panel for efficient content and user management.

### Pizza restaurant

My Pizza Restaurant is a dynamic web app for seamless food ordering. It includes a stylish homepage, interactive menu, customizable toppings, cart system, and secure order management using HTML, CSS, JavaScript, ASP.NET, and SQL Server.

### IIMM Ayodhya

I have created a clone of IIMM Ayodhya website, replicating its design, layout, and features. It showcases similar structure, navigation, and content styling, ensuring a professional and responsive user experience for learning and practice purposes.

## Core Skills

C#, ASP.NET , MVC, Java, JavaScript , React, HTML, CSS, MS SQL
