PROJECT

Movie Website
This website features four key pages: Admin, Home, Movie, and Registration. The Home page highlights various special features, providing an engaging and user-friendly experience. The Movie page offers a curated selection of films, while the Registration page allows users to sign up and access exclusive content. The Admin page enables efficient management of site content and user data"

Pizza restaurant
My Pizza Restaurant project is a dynamic web application designed to provide an easy and engaging food ordering experience. It features a stylish homepage, interactive pizza

menu with images, customizable toppings, and a smooth cart system. Customers can browse deals, add items, and place orders seamlessly. Built using HTML, CSS, JavaScript, and backend technologies like ASP.NET with SQL Server, the project focuses on user-friendly design, responsive layout, and secure order management, making it practical and professional.
